

Resolution on Reproductive Health Care

Whereas it is a fundamental constitutional right that individual Americans -- not government-- can best take responsibility for making intensely personal decisions about their own lives.

Whereas we value access to reproductive health care services and information as a way to ensure people make responsible decisions.

Whereas we cherish healthy families and understand that healthy families contribute to the well-being of Washington State.

Therefore be it resolved that the Washington State Republican Party will contact its members in the Washington State Legislature and let them know that access to and information about Family Planning is an important part of basic health care.
